NAME
     cuserid — character user ID

SYNOPSIS
     #include <stdio.h>

     char *cuserid (s)
     char *s;

DESCRIPTION
     Cuserid generates a character representation of the user ID of the owner of the current process.

     If (int)*s* is zero, this representation is generated in an internal static area, the address of which
     is returned. If (int)*s* is nonzero, *s* is assumed to point to an array of at least **L_cuserid** charac-
     ters; the representation is left in this array.

DIAGNOSTICS
     If the user ID cannot be found, *cuserid* returns NULL. if *s* is nonzero in this case, \0 will be
     placed at *s*.
