

NAME

fuid -- find user id in passwd file

SYNOPSIS

```
fuid(user)
char *user;
```

DESCRIPTION

Fuid looks in the /etc/passwd file for a given user name and returns the numerical user id if found or,

-1 - if it cannot find user

-2 - if it cannot open /etc/passwd

`getpwnam(3)` is called, which calls `malloc(3)`.

LIBRARY

/lib/lib1.a

FILES

/etc/passwd
